I added the date in CERCLIS. Please go to the Site Description screen and update the Non-NPL Status field for me. The current status is not correct and there is no future SA action in CERCLIS for future work. Please go to the site decision screen and update the information as well.

Thanks

Dianna

Sorry – I wasn't clear.

I wasn't locked out of CERCLIS. I was locked out of updating the ESI entry for the Pavillion Area GW Study site. The ESI should have an actual completion date of 8/31/2010, with further assessment needed at the time.

I am not able to update this in CERCLIS due to "accomplishment lockout"

Sorry for not being clear.

Rob

Robert,

I have unlocked your CERCLIS account and assigned you a new temporary password to allow you access to the database. Your temporary password is: **june2013#**

Please let me know if you experience any further trouble with logging into the database.

Please check with Robert Parker on his CERCLIS access. He is still locked out.

Thanks

Hi Dianna,

I tried to do it, but still was locked out.

Hi Rob,

Just checking to see if you have a chance to update this site in CERCLIS. Please let me know if you need me to add it.

Thanks

Dianna

Hi Dianna,

I realized today when looking for the enforcement site contacts in CERCLIS that the ESI action needs to have an actual completion date of 8/31/2010 in it. I'm not able to update it in

CERCLIS. DO you need me to fill out some paperwork for you to update that entry? We can't NFRAP it. It should have a further investigation needed decision to track it appropriately from that time.

Thanks,

Rob
